## EDUCATION

---

**University of Southern California**

Los Angeles, CA

*Bachelor of Science, Computer Science*

*Expected Graduation: May 2026*

**Coursework:** Data Structures and Object-Oriented Design, iOS App Development, Discrete Mathematics

## SKILLS

---

**Programming Languages:** Python (pandas, NumPy, Matplotlib), Swift, Java, C/C++, HTML, CSS, JavaScript

**Tools and Frameworks:** Figma, SwiftUI, Bootstrap, TypeScript, Angular, jQuery, React

## EXPERIENCE

---

**Chevron** – *Software Engineer Intern*

*Incoming Summer 2024*

**Tech4Good Research Lab** – *Front-End Developer*

*July 2023 - Aug. 2023*

- Utilized **HTML, CSS, TypeScript, and Angular** to build ExploreCareers, a platform centered around career progression through short-form social media videos.
- Drove the continuous improvement of ExploreCareers by actively participating in design reviews and iterative development cycles. Implemented over 10 interactive UI components from Figma, enhancing a user-friendly experience.

**Accenture** – *Technology and Software Consultant Fellow*

*May 2023*

- Investigated a case study scenario of modernizing a university library system by identifying potential challenges and accessibility issues, conducting user research, and analyzing survey data.
- Sketched wireframes and low-fidelity mockups, prototyped a web app using Figma, designed a branding identity to optimize usability and increase comprehension.
- Utilized **scrum and agile methodology** to streamline an effective access management process for **25K+ potential users**. Presented project to 15 Accenture employees.

**PocketStory App** – *Founder, iOS Developer and Designer*

*Aug. 2020 - Sept. 2021*

- Developed PocketStory, a musical storytelling game tailored to special needs children. Used **Swift, UIKit, and Core Audio** to create 5 engaging and educational minigames, promoting skills used in music therapy techniques.
- Prototyped app using **Figma** and established a compelling brand identity for landing page website and App Store previews, resulting in **over 500 page views**.
- Composed electronic background music and sound effects using **Logic Pro X**.
- Earned **Girl Scout Gold Award**, (top 5% in the nation) for demonstrating strong community impact.

## LEADERSHIP

---

**Citro Tech** (*Diversity in Tech org.*) – *Founder and Lead Director*

*July 2020 - Present*

- Organized two iterations of **Citro Hacks, an inaugural virtual hackathon** aiming to empower minorities in tech. Attracted a total of **1,385 high school/college students from 51 countries**, 65% consisting of first-time hackers. Resulted in a **99% increase in attendees' interest in a tech career**.
- Raised \$3,000+ by securing **24 sponsorships** with companies like JetBrains, Repl.it, Figma, DigitalOcean, Postman.
- Executed social media campaigns to 100K+ Instagram users, resulting in 14K+ monthly impressions and 1,000+ followers.
- Develop website using **HTML, CSS, Javascript, jQuery** while using Git for collaboration, amassing 2K+ views worldwide.

## AWARDS & AFFILIATIONS

---

**Major League Hacking (MLH) Top 50 Hackers of 2023**

Out of 150K+ student developers worldwide, 1 of 50 recognized for making a meaningful contribution and global impact within the hacker community.

**Other:** NCWIT National Honorable Mention Winner (top 11% in U.S.), AI4ALL Impact Grant Award (1 of 2 selected annually), Rewriting the Code Member, Society of Women Engineers Member, Kode With Klossy Alumni
